FABRIC BASKETS

Two Fat Quarters will make two Fabric Baskets.

Outside Fabric 10" x 18"

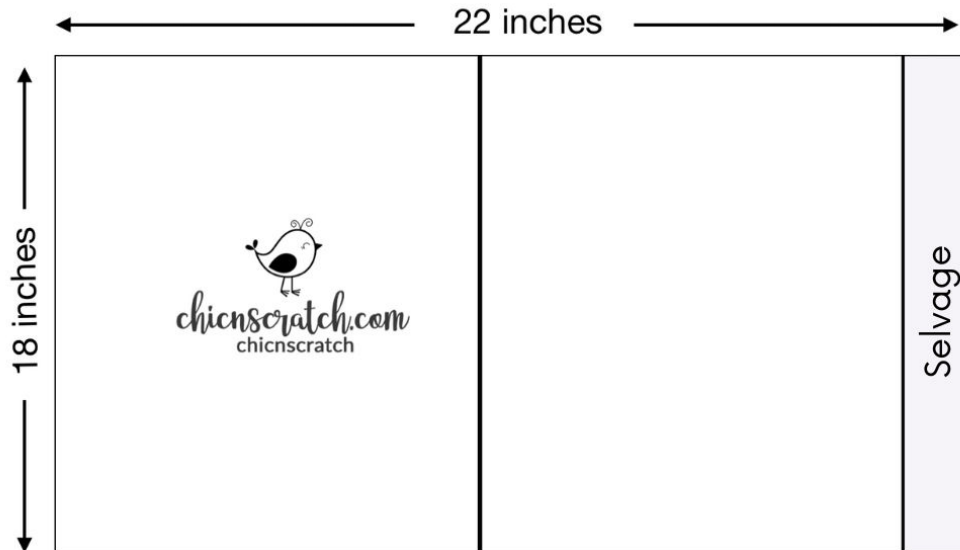

Lining Fabric 10" x 18"

Fusible Fleece 10" x 18"

**[CLICK HERE TO WATCH THE HOW TO VIDEO](https://chicnscratch.com/2020/02/how-to-make-a-fabric-basket.html)**

<https://chicnscratch.com/2020/02/how-to-make-a-fabric-basket.html>

1. Choose two Fat Quarters that coordinate.
2. Press Fat Quarters.

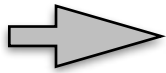

Cut Fat Quarter at 10" and that gives you two pieces that measure 10" x 18"

If the Fat Quarter is shorter than 18" use 17" and make sure you cut all three layers the same size (outside fabric, lining fabric, fusible fleece).

3. Cut both Fat Quarters to measure 10" x 18". Cut Fusible Fleece 10" x 18"
4. Press the Fusible Fleece to the Lining Fabric.
5. If you're adding a label, pin it in the seam line on the front of the outside fabric.
6. Fold your fabric in half, pin or clip and sew down the left and right side. Do this step on both the front fabric and lining fabric.
7. **Please watch video tutorial to make this project.**
8. Using a Grid and an erasable marker, trace a 1-1/2 square on bottom corners. Cut out, pinch together, clip and sew.
9. Turn the lining fabric right side out and place inside outside fabric (right sides of fabric should be facing each other). Clip or pin around the basket. See photo on page 3.
10. Sew together and leave a 2" opening. Turn right sides out and sew it closed.

STEP 9

**DRESS UP YOUR  
KLEENEX BOX  
BY PLACING IT  
INSIDE A FABRIC  
BASKET!**
